

Here we are at the beginning of the second month in the new year of 2019. The admonition of Joshua to the children of Israel as they embarked on the monumental task of the invasion of the Promised Land fits well for us as a ministry today. Paraphrasing Joshua 3:4, “You are headed into a territory that you have never been in before and it is of the utmost importance that you be led by the Lord”. Folks, that is what we at Touch the World Ministries intend to do. Let me remind you that you as a contributor are a part of the financially leanest missions ministry that I know of in the nation. We have only one paid employee state side (and she only gets a mere stipend). Our focus is on the mission field. Every one of our board members contributes to the ministry themselves. There are many projects on hold because of needed funds. **One very pressing project is the renovation and repairs on the clinic at River Jordan Children’s Home/School in Bungoma, Kenya. This is the only medical facility for 50 square miles and serves the medical needs of thousands of native Africans.** There are other needs at this home as well.

I thank everyone that has been a part of TTWM's work in the past. As you pray for the work and give as God leads, rest assured that needy children are having needs met, communities are being served, the good news is being shared, and the Lord gets all the Glory. Should you have questions about specific needs or burdens God lays on your heart please feel free to contact me personally.

TTWPRES@yahoo.com, 828-413-0438, or through the web site, touchtheworldministries.com.

Until He returns!

God Bless You,  
Homer
